Price..... Per doz., \$12 00

ENTERPRISE IMPROVED BUNG-HOLE BORER.

Most Complete Bung-Hole Borer in the Market.

To Sharpen the Stock or Reamer, File the Inside of the Slot Only.

The main advantages of this Borer are—it bores a complete round hole, regular taper, holds its own chips and prevents them from entering the cask. Being furnished with a ROUND LIP BIT, smoothness in boring is insured.

STUFFING ATTACHMENT

FOR

THE UNIVERSAL FOOD CHOPPER.

No. 2 Stuffing Attachment.

Attention is called to the new stuffing attachment for the Universal Food Chopper as shown in the illustrations. The stuffing attachment is made of one piece of seamless brass tubing spun into the shape required, heavily nickel plated and finely finished. A thread on the end of the barrel of the machine fits in the end of the stuffing attachment.

To use the stuffing attachment, rig the machine up with 3 tooth cutter and thumb nut, put the stuffing attachment right over these and screw it on to the end of the machine.

No. 2 and 3 Stuffing Attachments.....Per doz. \$4 50

WHOLESALE ICE TOOLS.

Crown Ice Chipper.

Gem Ice Shave.

Crown Ice Chipper Wood Handle, Polished Steel Blade, Galvanized Guard.....Per doz. \$9 00
Length over all, 10 inches.

Gem Ice Shave.....Per doz. \$9 00

Is a simple and efficient tool for shaving and collecting ice from blocks without moving the latter from their place in a refrigerator or other receptacle. As shown in cut, it is constructed like an ordinary plane, made of galvanized cast iron, having in front of the knife a receptacle closed by a lid, in which the ice shaved off collects, as the shave is moved forward and backward over the surface of a block of ice. Being quite short, the shave can be conveniently used on ice laying in a refrigerator; when receptacle is filled, raise the lid and empty the contents, which will be found fine as snow, repeating the operation till the required quantity is obtained. By means of the set-screw at back of the shave, the knife can be set further in or out, and thus regulate the fineness of the ice shaved off.
